## PNEUS

### TECHNICAL DATA

PRES. MAX	400 Bar / 5800 psi
WEIGHT	7,5Kg

### FEATURES:

The Pneus Maxi is the perfect gun for the coating of internal pipes. In fact, it can work with pipe from a minimum diameter of 450 mm up to a maximum of 750 mm. The Pneus has a rotating pneumatic motor, which allows the continuous rotation of the nozzle, ensuring the complete coating of the inner surface. On Pneus Maxi you can use standard flat nozzles or reversible tips, and you can use extension available at pag 64. On request you can stretch the arms of Pneus up to 950/1000 mm.
