FOR HYDRO JET 500 HERE

**Hydro 500** has been designed and constructed to ensure maximum performance, comfort and operating facility in wide range of conditions and jobs.

## Hydro 500E / Technical data

Nominal voltage	380V/440V 3ph 32A
Nominal frequency	50HZ/60HZ
Nominal power consumption	15 KW / 20 HP
Protection type	CLASS F / IP 55
Type of pump	UDOR
Type of pump	oil 15W40
Pump oil quantity	1 ltr
Max volume flow	15 lt/min @ 380 V/50 HZ
Max volume flow	18 lt/min @ 440 V/60 HZ
Adm. working pressure	500 bar
Nozzle size	030 @ 380 V/50 HZ
Nozzle size	035 @ 440 V/60 HZ
Noise level	72 Db(A)
Max operating pressure	520 bar
Max water intake temperature	40°
Weight in kg	177 kg
Dimensions LXWXH	100X77X72 cm

## Accessories

Rotating Turbonozzle

Sandblasting Kit

High Pressure Extension Hose

Hot Box

SAVING LIVES

**TST Head Protection 20/30**

The TST Head Protection 20/30 is a helmet that protects the face and hearing. All parts of the helmet are tested and certified for the protection they provide in high pressure liquids 3000bar.

**Overall with Hood – TST Sweden**

Three-layer coverall with hood, approved for High Pressure Cleaning. Suitable for the most difficult conditions.

**Protective Apron – TST Sweden**

The Protective Apron – TST Sweden has a specially designed surface to protect people when in hot areas. It adapts properly to the person and in this way the weight is distributed correctly.
